I am a passionate information technology student with experience in Flutter, graphic designing, as well as Backend and web development. I love learning and applying my skills to create innovative and practical solutions to real-world problems. In my free time, I enjoy reading tech blogs, participating in coding challenges, and exploring new technologies. I'm a team player with strong communication and problem-solving skills, and I'm always eager to collaborate with others and share my knowledge.

SKILLS

- Programming Languages: C/C++, JavaScript, Dart, Python, Java
- Tools & Platforms: GitHub, VS Code, Firebase, Android Studio, Figma
- Frameworks & Libraries: Flutter, Tailwind CSS, Bootstrap

PROJECTS

Safe Women
